Subject: Ant Fix, EPA Reg. No. 64405-9
Date of Registrant Submission: November 19, 2010
Decision: 447280

Dear Ms. Davis:

The labeling referred to above, submitted in connection with registration under the Federal insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records. If you have any questions regarding this letter, please contact Samantha Hulkower at (703) 603-0683.

Sincerely,

Mark Suarez
Product Manager 13
Insecticide Branch
Registration Division (7505P)

Enclosures: Copy of Label Stamped "Accepted"

This bait is most successful when competing sources of food are unavailable. This product is designed to kill Ghost ants, Olfactory house ants and other sweet-feeding ants; and German cockroaches within 42 days [6 weeks].

Ant-Fix [This product] is a very thick, no-drip, high grip formulation that allows its use on walls, under counters and on flat surfaces. Depress the plunger to dispense approximately ¼ to 1 inch of bait in each location. If the tip of the syringe gets clogged due to the formation of solids, clear by inserting one end of a paper clip.

Bait may be placed on ant trails and near points of entry into structures, such as windows, doors and cracks. Apply only in areas inaccessible to children and pets. Bait may be placed in refillable stations [sold separately] designed to house and protect bait. Avoid contamination of food and feedstuffs. Reapply bait, and/or monitor bait stations and refill, as needed.

Extreme temperatures and moisture may affect the effectiveness of the bait. Do not place bait onto surfaces where the temperature exceeds 120°F. Do not apply bait onto areas that are regularly washed or cleaned. Do not apply other pesticides or other chemicals onto the bait placements.

Ants (except carpenter, fire, harvester and pharaoh ants): Apply bait in areas where ants are noticed; this may include areas in kitchens (behind stoves, refrigerators, splash plates and around plumbing), pantries, cracks and crevices around window and door sills, in bathroom areas (around sinks, tubs and showers) and other areas where ants are seen.

German Cockroaches: For best results apply bait in multiple spot applications of approximately 1/4" to 1/2" in diameter. Apply bait in a thin layer, if desired, in areas where cockroaches may congregate such as cracks, crevices, cracks in and around plumbing, equipment and appliances (such as refrigerators, freezers, dishwashers, ovens and stoves) and other areas such as cracks in walls or construction units, electrical boxes, sinks, toilets and warm, moist areas that offer roaches harborage and/or a food source. Kills cockroaches within 42 days [6 weeks].

Ants (except carpenter, fire, harvester and pharaoh ants) **and German Cockroaches:** Applications in food/feed handling and processing establishments, including Federally-inspected food plants: In food areas, apply bait only in cracks, crevices and inaccessible areas or in tamper-resistant bait stations. Apply in food areas, including serving areas, when the establishment is not in operation. Apply small bait placements in cracks and crevices where ants or roaches may travel or congregate, openings into voids, between elements of construction, around plumbing, cabinets, sinks and stoves and other areas. Remove bait if bait contacts an exposed surface, other than the listed areas, and clean the surface prior to reuse. Kills cockroaches within 42 days [6 weeks].

{For product packaged in pre-filled bait stations:}

Hold the pre-filled bait station level and peel back clear {or other descriptive term} seal to expose entry point to bait. Monitor bait station and replace station when bait is depleted or every three months. To prevent reinfestation and where infestation is great, maintain an uninterrupted supply of bait.

For Ants

(Except carpenter, fire, harvester and pharaoh ants)

Place bait stations near ant activity (for example, along baseboards in closets, behind or in cabinets, etc.).

For German Cockroaches

Place bait stations where cockroaches or their signs have been seen or observed (for example, in attics, in cabinets, behind bookshelves, etc.). Kills cockroaches within 42 days [6 weeks].

(For product labeled only for household/residential uses:)

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store product in original container in a cool, dry place out of reach of children and pets.
Product/Container Handling: Non-refillable container; do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

(For product labeled for household/residential/industrial/commercial uses:)

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store product in original container in a cool, dry place out of reach of children and pets. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Handling:** Non-refillable container; do not reuse or refill this container. Clean container promptly after emptying, then offer for recycling, if available, or place in trash.

(Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.)

Warranty Disclaimer

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To the extent not prohibited by applicable law, **MANUFACTURER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

Inherent Risks of Use

The directions for use of this product are believed to be adequate and must be carefully followed. It is impossible to eliminate all risks associated with use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, the presence of other materials, climatic conditions or the manner of use/application, all of which are beyond the control of the Manufacturer. The buyer/user assumes all such risks.

Limitation of Remedies

To the extent not prohibited by applicable law, the exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability or other legal theories) shall be limited to, at Manufacturer's election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

To the extent not prohibited by applicable law: a) Manufacturer shall not be liable for losses or damages resulting from handling or use of this product unless Manufacturer is promptly notified of such loss or damage in writing; and b) **IN NO CASE SHALL MANUFACTURER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR LOSSES, INCLUDING WITHOUT LIMIT, HEALTH RELATED DAMAGES OR INJURIES.**

The terms of this **Warranty Disclaimer** and **Limitation of Remedies** cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Manufacturer or the seller is authorized to vary or exceed the terms of this **Warranty Disclaimer** or **Limitation of Remedies** in any manner.

It is not intended that this product be used to practice any patent, whether mentioned or not, without procurement of a license, if necessary, from the owner, following investigation by the user.
